Unit 1: Introduction

1. WAP to print "Hey, How are you" on the screen.

2. WAP to print your name, course, and college name on separate lines.

3. WAP to print "Hello," in the first line and "How are you" in the second line using escape sequences.

4. WAP to print `"HowAreYou"` on the screen (ensure the double quotes are printed).

5. WAP to print `\n` on the screen.

6. WAP to print `\r` on the screen.

7. WAP to print `"Teacher's Day"` with single quote and double quote.

8. WAP to calculate the size of byte, char, int, long, float, double, and short.

9. WAP with one char type variable: assign `'A'` to it, then change its value to `'B'` using the increment operator.

10. WAP to print the ASCII value of `'I'`.
